

STAIRCASES

CRAFTSMANSHIP IN CUSTOM DESIGN

From **planning** to **installation**
CPR Staircases combine
design with **craftsmanship**

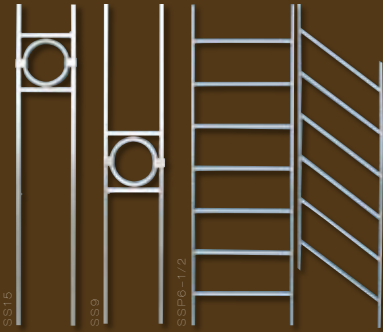

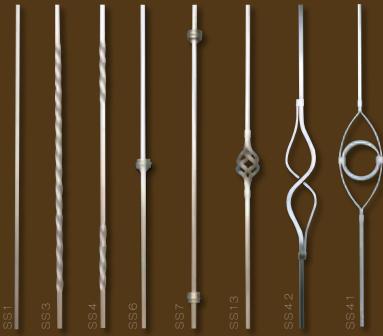

- Newcastle owned and operated
- Combining timber with Stainless Steel, Glass or Wrought Iron allows you to create an individual style
- With over 50 years combined experience CPR Staircases provides reliable service and knowledge
- CPR Staircases custom design can create a staircase to fit both your home and your budget
- External staircases are available using both Treated Pine or Hardwood Timber
- Whether you are an Owner Builder, Builder or an Architect we are here to assist
- Staircases, handrail and balustrades can be manufactured out of a range of Hardwood and Softwood timbers
- Straight, angular or curved design CPR Staircases provides the flexibility limited only by your imagination
- CPR Staircases can provide:
Supply and install, Supply only, Supply in kit form

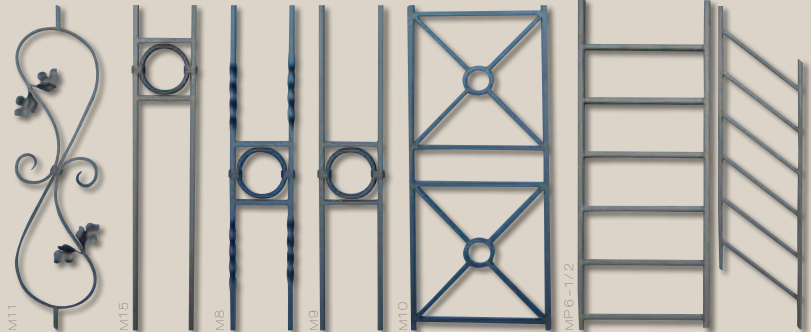

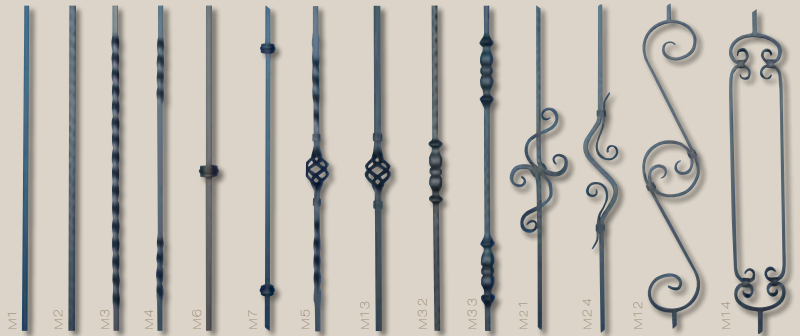

With a modern and well equipped workshop CPR Staircases use only the finest craftsman and the highest quality timbers and materials available to create and best reflect your personal style
